Assessment Details

ID: 23484

Gender: Female

Date of Birth: 09/17/1968

Tasks Completed: 4

Completion Date: 05/14/2020 14:24

Comparative Group: Females, 45-54

Performance Summary

Monkey Ladder
Visuospatial Working Memory

Odd One Out
Deductive Reasoning

Digit Span
Verbal Short-Term Memory

Feature Match
Attention

Monkey Ladder

A measure of visuospatial working memory — the ability to remember information about objects in space, and update memory based on changing circumstances.

AVERAGE

100 | 49 Percentile

Result is within the AVERAGE range. Common everyday activities associated with visuospatial working memory include:

- Following step-by-step instructions to carry out a task in a few different locations.
- Viewing a route on a map, then following the route from memory.
- Understanding positioning in sports, and carrying out pre-planned plays.
- Viewing a document, then carrying out the written instructions.

Odd One Out

Measures deductive reasoning — the ability to effectively apply rules to information and arrive at logical conclusions.

AVERAGE

102 | 55 Percentile

Result is within the AVERAGE range. Common everyday activities associated with deductive reasoning include:

- Evaluating a complex argument and deciding if you agree.
- Applying government rules to your finances to properly do your taxes.
- Noticing the details of a story and making inferences beyond what is directly stated—such as a character's emotions, or the story's message.
- Creating effective arguments for a position in a debate or essay.

Digit Span

Measures verbal short-term memory capacity, which is needed to hold information in mind and verbally rehearse it until it is needed.

AVERAGE

95 | 38 Percentile

Result is within the AVERAGE range. Common everyday activities associated with verbal short-term memory include:

- Understanding long sentences by remembering the beginning of the sentence by the time you get to the end.
- Writing down a phone number or entering credit card information.
- Taking notes during a meeting.
- Remembering all the points you wanted to bring up on a phone call.

Feature Match

A measure of attention — the ability to focus on relevant details or differences.

AVERAGE

96 | 40
Percentile

Result is within the AVERAGE range. Common everyday activities associated with attention include:

- Staying focused on a task when it counts, such as when driving.
- Identifying similarities and differences when comparing two things, such as two similar brands of a household product.
- Noticing small interpersonal details, like a partner's haircut, or subtle facial expressions indicating that somebody is upset or bored.
